

Langley Park School for Boys is an exceptional school that ensures excellent academic outcomes for our students. We are a large, inclusive, over-subscribed, 11-18 school with a co-educational Sixth Form. We consistently achieve high academic success, whilst maintaining a commitment to educating the 'whole child' through the promotion of sport and the arts as part of a well-rounded curriculum.

We are part of Impact Multi Academy Trust, and we work closely within the Trust with our other three secondary schools and our three primary schools.

We are looking to appoint a talented and enthusiastic Teacher of Maths to join our successful department in a high performing school. This is a permanent role that would commence **January 2026** and would be suitable for an experienced or newly qualified teacher on a full-time basis.

### What we are looking for:

The successful candidate will:

- Be passionate about Maths and excited to bring the subject to life
- Have a proven record as an excellent classroom practitioner
- Have experience of or be willing to teach across all Key Stages, preferably including A level.
- Be an experienced or newly qualified teacher

### What we have to offer you:

- State of the art building and facilities
- A supportive and collaborative department that values fresh ideas
- Committed and hardworking students
- Ongoing professional development and training
- A friendly and supportive working environment
- Opportunities for collaboration with other schools within our Trust
- Free access to a confidential 24/7 Employee Assistance Programme (EAP) provided through Health Assured

We are committed to equality of opportunity for all our staff.

We particularly welcome applicants from ethnic minority backgrounds as they are currently under-represented on our staff body.

We recognise the vital contribution that members of a diverse team make to our students'/pupils' learning. The range of cultural experiences, differing viewpoints and role models this brings is essential in our Trust and we recognise the gap that would be left in our team offering without these.
